| | Products | |
|-------------------------------|-----------------------|---------------------------|
| | In the drinking water | On the grain |
| THE WEEK BETWEEN RACES | | |
| AT RETURN (Saturday) | Belgamax & Rebuild | |
| Saturday evening | Improver & AntiFungal | Omega 3 & Rebuild Powder* |
| Monday | Improver & AntiFungal | |
| Tuesday | | |
| Wednesday | | Omega 3 & MultiViTra |
| Thursday | | Omega 3 & Oxy-B |
| Friday (Basketing) | | Turbo Flight at noon** |

*Only if race is hard and the pigeons are broken down (hanging wings at return)

** Add Turbo Flight (15 ml kilo grain) to energy rich grain - 10 gram grain to each pigeon

On the grain given at noon the day at basketing, also Rebuild can be added to the grain-Turbo Flight mixture

NOTE TO TURBO FLIGHT! Only to be used if race is < 20 hours after administration, i.e. Only 1 night in the basket

DOSAGES

(the 2 ml white spoon in the products corresponds to 1/2 teaspoon)

In the drinking water:

Belgamax: 1 heaped teaspoon per liter

Rebuild: 1 heaped teaspoon per liter

Improver: 1/2 teaspoon per 5 liter

AntiFungal: 1/2 teske per 5 liter vann

Clarify : 10 ml per liter

On the grain:

Omega 3: 1 tablespoon (10 ml) per kilo

Oxy-B pulver: 1 heaped teaspoon per kilo

MultiViTra: 1 heaped teaspoon per kilo

Lecithin: 1 tablespoon (10 ml) per kilo

L-Carnithine: 1 heaped teaspoon per kilo

Amino Acid Powder: 1 heaped teaspoon per kilo

Turbo Flight: 1.5 dinner spoon (15 ml) per kilo energy rich grain

HEALTH PROGRAM IN THE RACING SEASON

Against Canker: TriColi STOP Capsules or powder (flock treatment) every 2nd week or when needed*

We recommend to administer TriColi STOP on Tuesday evening if race is on Saturday

DOSAGE ON THE GRAIN WITH TRICOLI STOP (moisture with Omega-3):

1 heaped tablespoon (8 gram) per kilo grain. This 1 kilo grain mixture shall be given to 50 pigeons Tuesday evening

Against respiratory diseases: Clarify - Broncho Plus

In racing season: 3-4 successive days with Clarify every 2nd week (10 ml / liter water)*

In the racing season if warm and humidic weather: Spray the air in the loft with BronchoPlus 1 hour before the before basketing

Before racing season. We recommend to give Broncho Plus (2 ml per liter water) in 5 days.

*Clarify and TriColi STOP can be given every 2nd week - alternately
