1st International Barcelona 2025 against 15,602 pigeons – Anthony Pellitteri

2025

Hello Team Pigeon Vitality,

I would like to share my experience since managing my colony with Pigeon Vitality products.

For anyone who would like to try these products, they can be ordered directly via the website pigeonvitality.com and delivered straight to your home.

Since mid-season 2024, I started purchasing several products from Pigeon Vitality, particularly Improver and AntiFungal. I immediately noticed excellent health in my colony and perfect condition for the remainder of the season, highlighted for example by 5th National Narbonne against 4,983 pigeons!

In 2025, I expanded my range of Pigeon Vitality products, and the results were immediate. After entering only two pigeons in the queen race of Barcelona, I won 1st International against 15,602 pigeons over a distance of 998 km.

My international winner competed using Pigeon Vitality products and the Anthony Pellitteri schedule (Barcelona Pack), available on the website.

For the 2026 season, I plan to try even more products from the range, including the recovery products.

I am very confident because I have noticed that Pigeon Vitality products are extremely reliable and very well developed.

I cannot recommend these products highly enough, as they truly make life easier for the pigeon fancier!

Finally, I would like to personally thank Mr. Frode Brakstad, who is always available and very responsive in answering any questions I may have about the products, always with great precision.

Anthony Pellitteri
