

2024 National winner and top UK breeding stud – Ian Gibb

2024

I have been using Pigeon Vitality since 2019, mainly AntiFungal and Improver, as I feel these two products keep the birds in great condition all year round with my breeders and race team. I have also started using Wondermix, where I have seen a big difference in the birds, and the droppings are even better than before. I'm now trying the well-trusted recovery products for the forthcoming season.

All products can be obtained in Northern Ireland from the Kirkwoods feed store in Lisburn.
